

V600H Linear Crusher (Current updates)

Specifications:

Weight: 16,000 lbs. (dry)

Width: 100 in

Length: 123 in

Height: 84 in

Engine:

John Deere 9.0 L Tier III 385HP Turbo charged Diesel

Input:

Nominal: 12" Maximum: 18"

Output: From 5" minus to 1" minus (user controlled)

Arbor Speed: 0-1000 RPM

Main Hydraulics:

6000 psi variable displacement pump

Two radial piston motors

Close-loop

Contact:

Shop: 208-682-2131

Sid: 208-660-1507

Mike: 208-582-1603

Cooling systems:

Constant pressure variable flow hydraulic fan motors

Factory updates:

All current

Main Bearings:

Double Spherical Roller Bearings in oil bath

Belt drive System:

Goodyear Falcon HTC 14GTR

Tooling:

Chrome Alloy Hammers

Carbide Tipped Scarifying Teeth (Optional)

Tooling Configurations:

64 Hammer positions (max)

96 Scarifying Tooth positions (max)

Current Hours:

785 hours

Loader not included
